## PROFILE

---

Young men of 29 years old from the Lyon region, professional of catering and events since I was 15, it is time for me to explore new horizons. The customer experience is today the common thread of the different professions I had the chance to practice. This is why I plan to retrain in yacht industry, a sector in which I would like to develop my activity and realize my dream. Hardworking and rigorous during these different years I was able to maintain the adequate qualities that the daily life of the sailor requires
